## ENGLISH

Unfortunately, there don't seem to be any playthroughs that already use the adventure expansions of the story mode from Mythical stories or hero developments of the legend mode from Path of Legends and thus come close to the scope of the game from Aventuria "Chalices of Power" (= Aventuria v2.0). But at least the basic principles can be gleaned from the v1.0 videos.

You might also want to take a look at the German v2.0 and v1.5 videos and links below, even if you don't understand German. You can at least see some of the material and the automatic translation may give you a little insight into the new scope ☺

**Note: The current crowdfunding is Aventuria 2.0 (or v2) - as Aventuria 1.5 (or v1.5) I refer to the previous edition with all expansions (see the German videos)**

**v1.5 is close to v2.0, but not completely identical! v1.0 (or v1) is the old version which misses a lot of features of v1.5/v2.0**
